## RETAIL DEALERS INTERESTED.

IN WORK BEING DONE HERE  
FOR BETTER ACCOMODATIONS.

CHAIRMAN OATES GETS LETTER  
FROM SECRETARY OF THE  
STATE RETAIL DEALERS AS-  
SOCIATION.

The State Retail Dealers association is becoming interested in the efforts being made by the Daytona board of trade to get better passenger and freight accommodations on the Florida East Coast railroad and announces it will be glad to co-operate with the local civic organization in the work.

In a letter to Chairman E. F. Oates of the transportation committee of the board of trade, Secretary Harry N. Burhans of the state retail dealers expresses the interest of the association in the work being done here and the hope that the matter can be placed before the state railroad commission in such light they will be persuaded to take some action in the matter.

The members of the state retail dealers organization are scattered in all parts of the state and many of them have been having the same unsatisfactory experiences with the service on the East Coast that have been experienced by the business men and citizens of Daytona.

Mr. Oates is requested by the secretary to state the complaints of the citizens here against the railroad, that these may be circulated among the members.

## WIND IS TOO STRONG FOR AVIATION FLIGHTS.

Because of the strong wind this afternoon Aviator McCurdy did not make his advertised flight at 2:30 o'clock this afternoon. There were about 5,000 persons on the beach waiting for the flight to be made at the time of going to press and it was announced the race with the automobile would be pulled off later if the wind went down. In case the flight is not made late this afternoon the race with the automobile will take place at 2:30 o'clock tomorrow afternoon.

## THE LAMBERTS

THE LAMBERTS  
WANT TEA WITH FRIENDS.

THE LAMBERTS MAKE TRIP NORTH TO  
VISIT FAMOUS BEACH AND  
WANT TO TAKE TEA WITH  
FRIENDS.

The Lambert family took one more step forward yesterday afternoon. An aeroplane was used to keep a social engagement by J. A. D. McCurdy when he flew from here to a point ten miles above Ormond and then returned there and had tea with friends. He carried one of his mechanics with him on the flight, covering in all about 32 miles. Just as a jaded society man might step into his car and whirl down Fifth avenue to the club, so did McCurdy get into his aeroplane and whirl up to Ormond and have tea. He went ten miles above to inspect the beach for his contemplated flight to St. Augustine. He expressed the opinion that it could be easily made but has not decided definitely whether he will attempt it or not.

When McCurdy returned last night he landed Daytona beach. He declared that there isn't another place existing where there are such ideal conditions for aviation. He deplored the fact that Daytona beach does not receive more advertising than it does. As a training ground for young aviators just learning the business, McCurdy said this beach could not be surpassed. Always certain of a landing place as hard as rock and as smooth as marble, many of the dangers of aviation are eliminated. He said yesterday the beach afforded a treat to him when making landings, as compared with some of the rough, bumpy surfaces he has encountered elsewhere.

McCurdy was uncertain yesterday about making the flight to Ormond. The evening before some friends had invited him to come to Ormond and have tea with them. Yesterday afternoon, unnoticed, McCurdy slipped over to the beach and started. Just as he started away one of his mechanics clambered onto a support of the machine. Flying at a fair distance from the beach, McCurdy continued in a straight line to the life-saving station, meanwhile inspecting the beach below him. Then he came back to Ormond, landed and had tea. At a few minutes after 5 o'clock he went down to the beach and made the return flight to Daytona.

Lambert was taken ill, while her husband were touring in the car. Her condition has apparently been growing worse. Mr. and Mrs. Lambert arrived here from the city about a week ago and have been stopping at the Hotel Clarence since their arrival. The doctor has taken her home and she is as quickly deciding to leave the special train method of making the trip. The trip will be made in the most possible time.

The condition of Mrs. Lambert is considered by Dr. Bohannon to be particularly dangerous, but both her husband are anxious to leave and have taken the special train method of making the trip. The trip will be made in the most possible time.

Lambert is the owner of a large dry goods store in the city and is a well known figure in that section of the country.

Lambert is a woman about 24 years of age. Mr. and Mrs. Lambert are the only ones in the party.

Attorney Cary D. Landis was in the city for a brief time Wednesday, and in the afternoon for Miami.

Many more make you laugh but it turns out you are not afraid of people for laughing. Many people consider you a great comedian while they are speaking but later it turns out everybody sympathizes with the victim. Some men make you laugh out afterwards you are ashamed of yourself for laughing. Some public speakers create great enthusiasm while they are speaking but leave a vague and uncertain impression with the audience. There is something about the work of some Orators so vivid, inspiring and fascinating that produces a strong and lasting impression in the minds of his hearers.

"Ross' frame has come and gone but his impress remains. He is truly an artist with the crayon and the sculptor's clay. He has the poet's imagination, the philosopher's wisdom, the entertainer's skill and the exquisite charm of the true gentleman. The Alveston people are in a class that will be more than a thousand years hence by the remnants of the slave war of the American South. On Alveston, the people will be left in the struggle for freedom, that they succeeded to the Alveston, and then simply because the race was almost exterminated in the struggle.

While the Aleutian islands must eventually form an important link in the commerce between the United States and the orient, other islands link our country with the vast continent to the north. In the narrow Bering strait lie two little islands, one occupied by Russia, the other by the United States, so that citizens of the two great nations live on respective islands within a few miles of each other.—New York Press.

**WARD HAS EATING TIME;  
 MCCRUDY START SOMETHING.**

John Ward, a team mate of J. A.  
 D. McCurdy, arrived here yesterday  
 and witnessed the two fights by Mc-  
 Curdy. This afternoon he went to  
 St. Augustine where his machine  
 awaits him. He is to fly there Sun-  
 day.

Ward has been in Cuba for sever-  
 al weeks, where he toured the entire  
 island making fights. Ward said  
 last night that the last five weeks  
 he was in Cuba he lost 30 pounds  
 and that McCurdy also lost 20 pounds  
 while he was there. Ward attrib-  
 uted this to the poor food and Span-  
 ish cooking. He said that in  
 Havana he had a hard time eating  
 any of the food, but when he struck  
 inland he could scarcely eat at all.

He said that he was arrested  
 about every time he turned around on  
 the island. Once they arrested him  
 for landing in a farmer's cornfield  
 and another time for coming close to  
 some chairs and breaking them.  
 While at Santa Clara Ward came  
 near being mobbed. He told the  
 story last night to some friends here.

"Talk about people being easily ex-  
 cited," said Ward. "Why those peo-  
 ple over there don't ever take time  
 to think. It's too much work. I had  
 some Spanish promoters handling  
 my meets there for me. At Santa  
 Clara they engaged a field about  
 eight miles from town and adver-  
 tised the price at a dollar a head.  
 After the crowd got there they raised  
 it to \$2.50. The field was surrounded  
 by high mountains and unless one got  
 inside it was impossible to see me  
 fly at all. Well when they raised  
 the price that called everything off  
 right there, as far as an orderly  
 crowd was concerned. They started  
 a riot. Eight were killed and twenty-  
 nine injured. They were waiting  
 for me outside with block and tackle  
 and every other conceivable appliance  
 to give a man a good time and make  
 him feel to home. There wasn't any  
 'welcome-to-our-city' spirit about that  
 crowd. I just stayed by my machine  
 ready to take to the air, but a calm  
 prevailed after awhile."

Ward says that he does not care  
 about going to Cuba again very soon.  
 H. F. Greenleaf, one of Daytona's  
 regular winter visitors, who has  
 been located during the season as  
 usual with Mrs. E. A. Barker on  
 Ridgewood avenue, opposite the  
 Ridgewood hotel, at which hostelry  
 he took his meals, departed Monday  
 on his return to Boston, Mass.

Though some difficulties and d-  
 lays have been met this season and  
 much of the time delay has been  
 caused through being obliged to use  
 wood instead of coal for fuel, owing  
 to the difficulty in securing the lat-  
 ter, yet the management is well sat-  
 isfied with the outcome of the sea-  
 son's business, considering the ex-  
 perience of the present season a  
 valuable asset in their future busi-  
 ness.

 Artillery Corps, is expected tomor-  
 row from Ft. Dade, to make an in-  
 spection of Company K, Thursday  
 night at the armory on Volusia av-  
 enue.

Capt. Clarke is an officer of the  
 organization of the United Spanish  
 War Veterans and while he is in the  
 city an effort will be made to estab-  
 lish a camp in Daytona.

This has no connection with the  
 regular inspection of the company.  
 Capt. Clarke is merely taking advan-  
 tage of his visit to Daytona to agi-  
 tate the formation of a camp of U.  
 S. W. V., in which organization he  
 has personal interest.

All officers, soldiers or sailors of

 the United States, including acting

 and enlisted men in the U. S. re-  
 venue cutter service on vessels con-

**SWAN TO BE REMODELED  
 FOR NEXT SEASON'S BUSINESS.**

**WILL MAKE NO MORE TRIPS  
 THIS SEASON — LEFT THIS  
 MORNING FOR ST. AUGUSTINE  
 WHERE WORK WILL BE DONE.**

The steamer, Swan, which arrived  
 from Palm Beach Monday, will make  
 no more trips this season, as will  
 be seen by reference to the adver-  
 tisement elsewhere in this issue.

The Swan left this morning for  
 St. Augustine, where she will be re-  
 modeled during the summer, her  
 deck house being lowered and her  
 engine shifted to the bow of the  
 boat, better fitting her for service  
 in these waters in which she will be  
 used again next season.

Though some difficulties and d-  
 lays have been met this season and  
 much of the time delay has been  
 caused through being obliged to use  
 wood instead of coal for fuel, owing  
 to the difficulty in securing the lat-  
 ter, yet the management is well sat-  
 isfied with the outcome of the sea-  
 son's business, considering the ex-  
 perience of the present season a  
 valuable asset in their future busi-  
 ness.

"Good roads," said Mr. Edmonds, "is one of the great movements of the world today. Everywhere the vital importance of good roads in the economic development of a country is being more clearly appreciated.
